Subject:	loose format requirement for coordinates format		
Description			
<ul style="list-style-type: none">- in current version of browser, the format for coordinates have to be exactly same as 'chr:start-end' or 'chr start end' (one space delimited)- is it possible to loose this requirement?

what other formats do you suggest?

#2 - 01/23/2014 08:32 am - Daofeng Li

how about not limit to 1 space delimited? People usually view DMRs copied from terminal may have multiple space between chromosome and positions.

- Status changed from New to Resolved

Fixed in v32.0.1. Try these coordinates with multiple spaces separating fields:

chr7 55418829 55419003

chr7 57201792 57202367
