WashU Epigenome Browser - Bug # 169

Status:	Closed	**Priority:**	Normal
Author:	Daofeng Li	**Category:**	
Created:	03/02/2014	**Assignee:**	
Updated:	03/03/2014	**Due date:**	
Subject:	long range tracks not appeared in 2nd panel and also freeze 2nd panel		

Description

- steps I did
  - load roadmap
  - open 2nd panel
  - load long range hub
  - add IMR90 Hi-C
  - see screenshot please

History

cannot reproduce this problem on both TEST and PUBLIC

please test again and give more information

#2 - 03/03/2014 08:57 am - Daofeng Li

yes, you are right.
I tried 3 times on Win7 last night, but didn't see this on MacOSX this morning. Will do more test when back to PC.
