

WashU Epigenome Browser - Bug # 2

Status:	Closed	Priority:	Low
Author:	Daofeng Li	Category:	
Created:	07/18/2013	Assignee:	
Updated:	10/07/2013	Due date:	

Subject: chrome empty canvas

Description

- happend only in Google Chrome under MacOSX
- not existed in Safari, IE10, Firefox and even Google Chrome under Windows
- to reproduce:
 1. open browser
 2. just pan right the panel for several times
 3. you will see a blank panel then (attached)
