Subject:	Matplot not working with sessions		

Description

What I did:

1. Open new browser session.

2. Sessions app > enter session ID = ddSQFzBWvS and "Retrieve"

3. Enter version "1) EDC locus". Browser looks fine.

4. Go back to Sessions, choose version "2) H3K9me3 matplot" -- there is NO matplot.

However, if I refresh, then load the same session ID and choose "2) H3K9me3 matplot" FIRST, then the matplot loads properly.
