<b>Subject:</b>	Incorrect SNP coordinate based on SNP ID		
<b>Description</b>			
<p>I found a discrepancy on SNP coordinate on one example.</p> <p>If you search rs10499197 on hg19 browser, the browser returns: chr6:138132515-138132516.</p> <p>However, on multiple sources, the coordinate is supposed to be chr6:137811379-137811380</p> <p>For example, from here: <a href="http://www.snpedia.com/index.php/Rs10499197">http://www.snpedia.com/index.php/Rs10499197</a></p> <p>So something might be a bit off within SNP coordinates.</p>
