Updated:	08/07/2013	**Due date:**	
Subject:	right click twice caused background color change		

Description
- might be not a bug while it just happened on my computer   - I am using Google Chrome in Windows 7   - open browser, right click at any empty area twice, the background color became white   - I will test Safari later   - attached a screenshot

History

I can't reproduce it, it should be a issue with web browser, not the genome browser

#2 - 08/07/2013 09:21 am - Daofeng Li

- I agree with you, it should be related to web browsers.
- anyway, I tested again at Mac, only reproduce it at Chrome (Safari and Firefox didn't)
- see this video: http://screencast.com/t/ox8NNj2A

#3 - 08/07/2013 09:32 am - Daofeng Li

- Status changed from New to Closed

closed due to not a real bug.
